Experience

Founder — Geist 2025 – Present

AI QA Engineer Tool · geist.in · Solo

- Built an AI tool that reads GitHub PRs and auto-generates contextual QA checklists, eliminating manual test case writing for engineering teams
- Architected full product solo — backend, landing page, demo repository (shopflow-backend), and sales pipeline — using Claude Code as primary agent
- Actively running outreach to QA managers and engineering leads; onboarded early demo users for feedback cycles

Summer Intern → Head of Technical Department — Xinity Hackathon Community · May 2026 – Present

Marwadi University · Product-Oriented Developer Community

- Started as Summer Intern (May 2026); promoted to Head of Technical Department (July 2026) within 2 months based on work quality and software delivered
- Lead the developer community at Marwadi University organizing product-first hackathons including Biothon 2026, with 200+ student participants
- Built event platform on Firebase handling registrations, team coordination, and real-time dashboard for 3+ hackathon events
- Patched a critical unauthenticated Firebase API vulnerability exposing full event data; handled independently within hours

Co-Founder — Niora Digital Solutions 2023 – 2024

Digital Marketing & Technology Startup

- Co-founded and led a digital solutions startup delivering web products and marketing campaigns for local businesses
- Managed end-to-end client relationships across multiple projects; handled strategy, delivery, and post-launch support

Projects

VendorBridge — Procurement & Vendor ERP *Next.js · Firebase · Tailwind · Recharts*

Odoo x KSV Hackathon 2026 · Built solo in 8 hours

- Full-stack ERP covering the complete procurement lifecycle: RFQ wizard, quotation comparison engine, auto PO generation (PO-2026-XXXX), invoice PDF/email delivery, and analytics dashboard
- Implemented 4-tier role-based access control (Admin, Manager, Procurement Officer, Vendor) with Firestore security rules and middleware guards
- Seeded with 12-month realistic demo data: 15 vendors, 12 RFQs, 30+ quotations, 10 POs totalling ₹1.6+ Cr

SkillMatch — AI Career Platform *Python · ML · Recommendation Systems*

 *3rd Place — Open Innovation, CodeVersity @ IIT Gandhinagar (National Level)*

- Skill-based matching engine connecting users with internships, jobs, and hackathons — matched on growth potential, not just current qualifications
- Won 3rd place nationally out of hundreds of competing teams at IIT Gandhinagar CodeVersity

Voxel Air — Gesture-Controlled 3D Editor *Three.js · WebGL · MediaPipe · JavaScript*

- Browser-based 3D voxel editor controlled by real-time hand gestures via MediaPipe — fully static, zero backend, instant deploy

FRIDAY — AI Voice Assistant for macOS *Groq · LLaMA · Whisper · AppleScript · Python*

- Voice and text AI assistant with system-level macOS control via AppleScript; real-time speech transcription via Whisper on Groq

Galaxy Zoo CNN Classifier *PyTorch · EfficientNet-B0 · NASA/JWST*

- EfficientNet-B0 trained on NASA/JWST galaxy images to classify 7 morphological types at 90%+ accuracy with full training pipeline, confusion matrix, and Excel output

Achievements

-  **Published Author — The Truth Behind Artificial Intelligence (Amazon KDP)**
-  **3rd Place, National** — Open Innovation, CodeVersity Hackathon @ IIT Gandhinagar with SkillMatch
-  **Finalist** — Student HackPad 2025 National Competition
-  **SIH 2025 Qualifier** — Smart India Hackathon (National Level)
-  **HackerRank 5-Star Gold** — C/C++

Certifications

- **Certificate of Participation** — National AI/ML Hackathon by AVEVA of YUVAAN · Unstop, Mar 2026
